European Refresher Course for Old Age Psychiatrists

This October the Institute of Mental Health will host the second **European Refresher Course for Old Age Psychiatrists** – run jointly by the European Association of Geriatric Psychiatry (EAGP) and the Faculty of Old Age Psychiatrists, Royal College of Psychiatrists.

Building on the success of the first refresher course held in Leuven, Belgium, in 2016, this two day learning and networking event for consultant old age psychiatrists will include invited speakers from across the UK and Europe. The event will provide an engaging and stimulating programme to refresh and invigorate senior psychiatrists and their practice.

Sign up to the Institute's mailing list and you will be kept up to date with the latest news and events, simply email: imh.events@nottshc.nhs.uk
